

## Project Status report

Name:	Dinesh Dalip
Community (UN SD goal):	Local Supplies requesting for Classroom ; Goal #1 No Poverty & Goal #4 Education
MVP #	1 and 2
Sprint cycle dates:	NOV 17, 2023

Project Name	BuidMyClassroom
Blurb	I am creating a Digital habitat for teachers to request useful items for young students. Items relating to school base activities, student help. With this I am focusing on Sustainable Development Goal of No Poverty & Quality Education
For Week Ending	NOV 17, 2023
Project Status	Green
Status Description	The status is Green because a working mvp is done with functionalities from mvp 2 and if it wanted to it could be utilized.
Activities—During the past sprint cycle	
<ul style="list-style-type: none"><li>• MVP 1/2<ul style="list-style-type: none"><li>○ Functionality: Login/Signup with email activation/Forgot password/change password</li><li>○ Adding items.<ul style="list-style-type: none"><li>■ deleting</li></ul></li><li>○ Viewing all Products</li><li>○ Option to view Products without signing up and hiding logged in users functionalities from non-login users.</li><li>○ Responsive UI</li><li>○ Validations for many endpoints have been done so users do not get stuck upon errors.</li></ul></li></ul>	
Project Issues	
One of the issues was: Unable to render user Images of items--- (FIXED - images requires a local storage and Database storage )	
Project Changes	
NONE FOR NOW.	
Activities—Planned for Next Week	

List all activities that the team members will work on during the next week of the project.

- MVP 2/3
  - Add tags related to items ( for better product finding)
  - Add functionality for suppliers to post their items
  - Fix Image rendering issue
- User Testing (Fix Bugs)
  - Fix image issue

## Reflection

### Do you feel "on track"?

At the moment, I believe I am well on track

### What progress do you particularly feel good (great) about?

A workable platform is made and could be utilized. Addinatalty, I got to learn how image storage works for dbs.

### What barriers (if any) do you feel is/are a current impediment to success?

None for now.

### What help (if any) do you require to move positively forward?

Feedback from users will be a massive help to justify the design and recommendation for additional features integration which could help utilize the tools better. (user testing is planned for next week)

### What questions or concerns do you have (if any)?

Currently I do not have a question because I have a fair idea on what has to be done.
