

Project Status report

Name:	Dinesh Dalip
Community (UN SD goal):	Local Supplies requesting for Classroom ; Goal #1 No Poverty & Goal #4 Education
MVP #	1
Sprint cycle dates:	NOV 3, 2023

Project Name	BuidMyClassroom
Blurb	<p>Briefly restate what you are doing; The UN Sustainable Development Goal focus(es); Any changes to your project vision/why</p> <p>I am creating a Digital habitat for teachers to request useful items for young students. Items relating to school base activities, student help. With this I am focusing on Sustainable Development Goal of No Poverty & Quality Education</p>
For Week Ending	NOV 3, 2023
Project Status	Yellow
Status Description	<p>Provide an overview of the project's current status. If the status is yellow or red, indicate:</p> <ul style="list-style-type: none">* The reason(s) that the status is yellow or red.* The planned action(s) that will bring the project back to a green status.
Activities—During the past sprint cycle	

Worked with different WordPress templates.
Worked with different WordPress Plugins.

Project Issues

Plugin doesn't give user-friendly backend for the Admin side. This was one of the technical requirement.
Paid Plugins which goes above the budget.

Project Changes

WordPres does not contain what is needed for the project and the addons are not satisfying the required functional requirements of the project which is affecting the technical requirements of the project. Therefore using a MERN stack is a better option based on redoing the Business Case.

Activities—Planned for Next Week

List all activities that the team members will work on during the next week of the project.

- MVP 1

-
- Login/Signup Functionality
 - Adding items.
 - Editing, deleting
 - Viewing all Products

Reflection

Do you feel "on track"?

At the moment, fairly on track as this week was to work with designs and find what is suitable.

What progress do you particularly feel good (great) about?

Able to know different WP add-on. using frameworks to justify my design

What barriers (if any) do you feel is/are a current impediment to success?

WordPress add-ons

What help (if any) do you require to move positively forward?

Work with Open-source libraries such as Node, MERN stack

What questions or concerns do you have (if any)?

Currently I do not have question because I have a fair idea on what has to be done.
