Project Deliverables	
[Requesting Items]	This feature will enable users to communicate with suppliers. Users(teachers) can request an item such as school supplies for the classroom with description. The teachers will have access to viewing posts, creating posts, and deleting posts regarding item requesting. Like to Include: Google Map integration for pick up or delivery options. Students digitally request the teacher for a approver of posting a request for specific item
[Users giving away]	This feature will enable suppliers who have extra supplies to post a giveaway request. Requests will be uploaded for others to see and ask to contact regarding delivery options. Suppliers also are able to see posts by teacher for items and contact them if they have the specific items to give away
Like to Include:	This will enable teachers to celebrate by posting regarding the impact the free items had on students. Which can be shared around for comments and connecting.
Project Exclusions	

- This platform will not allow access to students for posting such requests.
- Platform not related to school
- Not allow requesting things for kids outside the classroom
